To,
The Internship Coordinator
AICTE Internship Portal

Subject: Application for Internship Opportunity – Computer Science Engineering (AI & ML)

Dear Sir/Madam,

I am writing to express my sincere interest in internship opportunities available through the AICTE Internship Portal. I am currently pursuing my Bachelor of Engineering in Computer Science Engineering with a specialization in Artificial Intelligence and Machine Learning at Global Academy of Technology, Karnataka.

I possess a strong interest in software development, artificial intelligence, and full-stack web technologies. Over time, I have worked on several practical projects that helped me strengthen my technical and problem-solving skills. Some of my notable projects include a full-stack AI-powered NotebookLM clone, a Django-based e-commerce application, a Plant Disease Detection system using TensorFlow and Streamlit, and a Route Optimization project implementing Dijkstra's Algorithm. Through these projects, I gained hands-on experience in backend development, REST APIs, databases, machine learning integration, and frontend technologies.

Apart from academics, I have actively participated in hackathons and technical events. These experiences enhanced my ability to work collaboratively, think creatively under pressure, and build efficient real-world solutions within limited timeframes.

I am highly motivated to learn, adaptable to new technologies, and passionate about applying my knowledge in a professional environment. I believe an internship with your organization would provide me with valuable industry exposure and an opportunity to contribute meaningfully to ongoing projects while further developing my technical and professional skills.

I would be grateful for the opportunity to be considered for an internship with your esteemed organization. I am available for any further discussion or interview at your convenience.

Thank you for your time and consideration.

Yours sincerely,
Manoj M
